***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 28-35, drawn to a chemical compound of formula (I), process for preparing, pesticide or herbicide, and method of controlling pests using a chemical compound of formula (I).
  - II. Claims 36-40, drawn to various intermediate compounds of formula (V), (XXXVII), (VI), (XXXVIII), and (XXXIX).
2. Inventions I-II are related as product claims. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case, the product as claimed can be used in a materially different process of using that product. For instance, see claims 33 wherein a pesticide or herbicide is claimed.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
4. A telephone call was made to Mr. Raymond Harmuth on June 28, 2005 and July 6, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 1625

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).
